

**NSF Funding for the Atiyah80 workshop “Geometry and Physics”
Edinburgh, April 20-22, 2009**

The Atiyah80 workshop is expected to receive a small grant from NSF to partially support several selected participants from USA. Graduate students, post-doctoral researchers, minorities in mathematics, in particular female mathematicians, are encouraged to apply.

The deadline for application is Feb 28, 2009. Applications submitted after this date will not be considered. The decision will be made in early March.

If you are interested, please send a short CV, including your name, contact information, career history, gender, minority status, together with your reasons for wanting to attend this workshop to Ms. Helene Frossling at Helene.Frossling@icms.org.uk

For graduate students, it will be helpful to submit a letter of recommendation from the advisor in support of the application.

Please note that attendees receiving NSF funding will be asked to pay a registration fee of US\$150.00 in advance. The fee can then be claimed back from the NSF in the US, along with the travel and accommodation expenses.
