

Rational & computational design of self-assembling peptide barrels

Woolfson Group from the past decade

Rokas Petrenas, Katherine Albanese,

Elise Naudin, Bram Myelmans,

Fabio Pirro, & Will Dawson

Graham Leggett, Tom Oliver, Nigel Savery, Arne Scott

Dek Woolfson

Chemistry, Biochemistry, & Bristol BioDesign

About today's talk

1. How we design peptide assemblies

ACS Synth Biol 1, 240-250 (2012)

J Am Chem Soc 135, 5161-5166 (2013)

Science 346, 485-488 (2014)

2. Peptidic molecular flasks

Rokas Petrenas
unpublished work

3. From peptides to proteins...

Potential for sequence diversity and utility

Chem Sci 13, 11330-40 (2022)
& some unpublished work

Why design peptides and proteins?

- **It's still a challenge**

- **Fundamental science**

- *It's the acid test of our **understanding** of the protein-folding problem; i.e., how does the amino-acid sequence of a protein determine and maintain its 3D structure?*

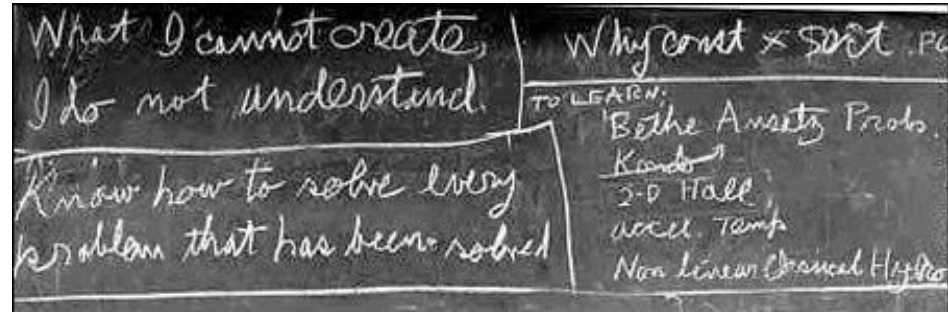

- **Frontier science**

- *To design proteins that do not exist in nature; i.e., to explore the dark matter of protein space.*

- **Applied science**

- *Where possible, translate this to design proteins that address real-world problems & applications.*

- **It's fun**

About today's talk

1. How we design peptide assemblies

ACS Synth Biol 1, 240-250 (2012)

J Am Chem Soc 135, 5161-5166 (2013)

Science 346, 485-488 (2014)

2. Peptidic molecular flasks

Rokas Petrenas
unpublished work

3. From peptides to proteins...

Potential for sequence diversity and utility

Chem Sci 13, 11330-40 (2022)
& some unpublished work

How we design peptide assemblies

1. Rationally

hpp**h**pp**h**pp**h**pp**h**

← 3 → ← 4 → ← 3 → ← 4 →

abc**d**ef**g**a**b**cd**e**fg**a**

ACS Synth Biol 1, 240-250 (2012)

J Am Chem Soc 135, 5161-5166 (2013)

2. Computationally

coiledcoils.chm.bris.ac.uk/ccbuilder2/builder

Science 346, 485-488 (2014)

Functions we've added to α HBs ...

... catalysis

Nature Chemistry

... inducible structural switches

Nature Chemistry ARTN 1530 (2021)

... peptide nanotubes (after Conticello)

J Am Chem Soc 137, 10554-62 (2015)

... membrane-s

... based biosensor

Nature Chemistry 13, 643-50 (2021)

Nature Commun 14, ARTN 383 (2023)
